HOW TO USE

This is the first online Heavy Duty News that offers its readers a fully interactive experience providing enhanced accessibility to product related information and video content.

All the pages within HDN have been built to allow the user to click on a number of points on each page providing added features and insight. Simply hover over the various features on each page and click to access a multitude of additional interactive content.

Within this document you can view interactive product videos, follow external links to MILWAUKEE® product pages and easily skip between page links all by clicking elements

On some pages you will see a play  button.

Clicking on this will play a video about that product or range.

Some products will link through to the MILWAUKEE® website. Where you see the 'Click here to view online' message, follow the link to learn more.

When you have finished watching a video, click the cross to close the video player.

Dear MILWAUKEE® Revolutionaries,

Whether it is through our world leading M12™, M18™, and MX FUEL™ cordless systems, our jobsite lighting, time saving accessories or innovative hand tools, storage and brand new PPE products, in 2021 MILWAUKEE® is dedicated to delivering you a continuous flow of advanced, trade specific solutions.

This year MILWAUKEE® takes the Layout category by storm by giving the green light to a full range of innovative Red Lithium USB and M12™ Cross and 3-Plane Line Lasers. These give you uncompromised all-day run-time and maximised Green Laser visibility, plus the best usability and the expected MILWAUKEE® reliability to make your workday the most productive. One REDLITHIUM™-USB battery runs for 8 hrs straight and pays you back the cost of 6000 Alkaline batteries over its useable life. To top it off, M12™ 3.0 Ah or 4.0 Ah batteries are a major system benefit for those high demand users with up to 15 hours of run-time on a 3-Plane Laser, again saving you significant down-time and money.

From the people who invented the Sawzall reciprocating saw 70 years ago, a legend for demolition jobs, MILWAUKEE® Tool brings you the next generation M18 FUEL™ ONE-KEY™ Sawzall. The fastest-cutting reciprocating saw in its class thanks to the M18 FUEL™ technology, it is not only lighter, than the previous generation, but also the most durable Sawzall to-date. ONE-KEY™ connectivity continues to lead the way with game-changing performance and productivity gains by allowing the user to select optimised cutting speeds in extreme hard materials to save time, money and up to 3X blade wear.

When it comes to cutting, sanding, or scraping in the second fix phase nothing compares to the versatility of oscillating multi-tools. Harnessing the power, performance, and run-time of the M12™ FUEL™ and M18 FUEL™ technologies, Milwaukee Tool now deliver the fastest and most powerful cordless oscillating multi-tools to the market with a new range of MILWAUKEE®-made oscillating blades with the Starlock interface, providing the user with more comfort and less fatigue from the lowest multi-tool vibrations ever!

Talking about the focus on the perfect match, MILWAUKEE® is driving continuous investments into new-to-the-industry development & manufacturing technologies to be the #1 Sawzall blades and #2 carbide drills manufacturer in the world, and to match our cordless tools with the best-performing new SDS Plus, masonry, multi-material, glass & tile drill bits. The new SDS Plus SLEDGE self-sharpening chisel accessories also win you that extra time, saving money with every hole every time.

PACKOUT™ fan's get ready! When it comes to PACKOUT™, versatility and durability is the name of the game. Every day users find hundreds of creative ways to stack and lock the now 27 and counting modular PACKOUT™ elements. High impact polymer, 100kg load industrial grade handles, IP 65 rated seals and metal reinforced corners walk the rest of the talk. What makes PACKOUT™ so revolutionary is the holistic system approach and the constant flow of new products like the new PACKOUT™ 2-Wheel Cart, and customisable 2-in-1 Work Surface. In addition we have integrated the M18™ System into PACKOUT™ with the M18™ PACKOUT™ Radio, TRUEVIEW™ Area Light Charger, and M18 FUEL™ Vacuum Cleaner, and it will not stop here...

We are continuing to assert our dominance in the Impact Wrench category with the next Generation of M18 FUEL™ Compact and Mid Torque Impact Wrenches that are up to 30% more powerful and up to 20% more Compact than their predecessors, with features like the Tri-LED Lighting to keep you ahead of the game and in peak productivity. We will also impress those mechanics by further converting strenuous manual motion work to our expanding mechanics range of M12™ ratchets and the new 1/4" and 3/8" M12 FUEL™ High Speed Ratchets with up to 50% more application speed.

This year you will find more new ways in the M12™ System to motorize traditional hand tools, like the awesome small diameter M12 FUEL™ Hatchet 150mm pruning saw or the unique M12 FUEL™ 64mm capacity bandsaw, the perfect blend of compact size, light weight and top performance, always with the safety of the user in mind. They will be complemented with the new M12™ DAB Radio Charger, a new M12™ TRUEVIEW™ pivoting service light and the first M12 FUEL™ Wet/Dry vacuum matching the 18V suction power.

A clear priority for us at MILWAUKEE® is to not slow you down and to keep you safe and protected at the same time. The biggest risks on-site are trip and drop hazards as well as fumes, dust and vibrations. By driving the cordless job site with M12™, M18™, FUEL™, TRUEVIEW™ and more, MILWAUKEE® has been able to help remove trip hazards, cut emissions, reduce HAVS, improve dust management, and optimise lighting solutions ultimately keeping users safe and productive. The introduction of the MX FUEL™ light equipment range is another commitment to the cause to deliver petrol performance with reduced setup time and without the associated health and safety hazards faced by your everyday user. Milwaukee Tool's next logical step to maximise safety, performance and productivity on the job site is the launch of over 40 innovative ground-up personal protective equipment products, across respiratory protection, safety glasses, tool lanyards, hearing protection, cut and impact gloves, and high visibility vests. Don't worry, we got you covered in 2021! Stay safe and productive.

THE COM

MILWAUKEE® SOLUTIONS FOR ALL TRADES

COMPLETE SOLUTIONS PROVIDER

From the beginning in 1924 at Milwaukee Tool we have focused on producing solutions that are more portable and ergonomic for the professional end user. From the original Hole Shooter, the first single handed electric drill, to the industry first MX FUEL™ range, relentless and disruptive innovation has enabled Milwaukee Tool to deliver industry changing products throughout history.

We have visited over 2400 jobsites, spent 7000+ hours standing with end users, learning what we can do differently, how we could help our end users to work safer and smarter, not harder. We don't think of ourselves as a power tools company, or an accessories company, or a hand tools company, we think of ourselves as a solutions provider.

LLD50 | ART.# 4932478104

LASER LINE DETECTOR

FEATURES:

- Adjustable accuracy settings for greater precision
- Rare earth magnets located on two sides of the detector allow it to easily attach to metal surfaces, ideal for suspended ceiling installations
- IP54 protects detector from jobsite conditions
- The MILWAUKEE® LLD50 laser line detector extends laser functionality up to 50 m
- The LEDs on front and back allow easy and accurate detection of the laser beam to improve the set-up process
- The included clamp is ideal for attaching to non-metal surfaces for setting elevations
- Features adjustable audio and over 65 hours of run time with included AA batteries
- Compatible with all MILWAUKEE® line & plane lasers
- 1 m impact resistance

360° LASER MOUNT BRACKET

[CLICK HERE TO VIEW ONLINE](#)

FEATURES:

- The MILWAUKEE® 360° laser mount is an adaptable laser attachment that provides the fastest laser setup
- Multi-plane rotational adjustment, users can easily attach all MILWAUKEE® lasers to the mount
- A micro vertical adjustment that makes aligning horizontal lines much faster
- The amplified rare earth magnets on both sides provide a strong hold even on thin steel stud material
- Integrated screw and nail hang holes make setup easy and efficient in any environment
- Integrated 1/4" & 5/8" thread to easily attach to most tripods

NEW

£ 82.80 INC. VAT

TRP180 | ART.# 4932478106

1.8 METER LASER TRIPOD

FEATURES:

- The MILWAUKEE® laser tripod with a 1/4" mounting thread is ideal for setting the height of a horizontal laser line or elevating the laser when needed
- Height can be adjusted easily from 72 cm to 180 cm
- Laser can be mounted to the bottom of the tripod with the 360° mount (not included) for low level applications like socket installation
- Adjustable pan tilt head with removable laser mounting plate
- Reinforced gearing on the centre shaft for longer tool life
- Lightweight aluminium design

M12 FUEL WET/DRY VACUUM

[CLICK HERE TO VIEW ONLINE](#)

FEATURES:

- Powerful M12 FUEL™ motor with a maximum air flow of 1275 l/min & 105 mbar provides 18V performance for both wet and dry clean up applications
- With a 6.0 Ah battery the vacuum provides 14 minutes of run time on high and 26 minutes on the low setting, this compact vacuum is ideal for spot and service focused wet/ dry quick clean up needs
- The highly efficient HEPA filter collects 99.97 % of airborne particles down to 0.3 microns
- Internal accessory and hose storage allows all attachments to be carried with the tool avoiding loss of equipment
- The DEK 26 power tool connector allows for efficient dust extraction from power tools
- Stackable tool box design for added portability and easier storage
- Wall mount hanging plate included for increased storage options
- On board blower for moving debris away from the work area

ON-BOARD ACCESSORY STORAGE

Improved system performance in application.

Recommended battery considering average runtime requirements, average application demand and ergonomics.

* Compared with standard Lithium-Ion competition and previous MILWAUKEE® battery technology.
 ** Results dependent on voltage, tool, accessory, application and user experience.
 *** Over-temperature battery shut-down may occur during prolonged or continuous use.

- Anti-microbial treatment prevents odors & bacteria build-up
- Moisture wicking fabric treatment repels water
- 60/40 Cotton-poly blend
- Durable, breathable fabric
- UPF 30+ rating
- Blocks harmful UV rays

Available in sizes from S to XXL, in short and in long sleeve

WORKSKIN™ LIGHTWEIGHT PERFORMANCE SHIRTS

FEATURES:

- Wicks moisture up to 15X faster vs standard cotton T-shirts
- 100% Polyester fabric dries quickly and keeps users cool
- Extended fast wicking sweat zones accelerates drying
- UPF 50+ rating
- Blocks harmful UV rays
- Anti-microbial treatment prevents odors & bacteria build-up
- Durable, pilling resistant fabric extends product life
- Raglan sleeves provide improved range of motion
- Improved neck drop to eliminate irritation against the neck

Available in sizes from S to XXL, in short and in long sleeve

HEAVY DUTY PULLOVER HOODIES

FEATURES:

- Tear & abrasion resistant fabric
- Heavy Duty 450 GSM fabric weight
- Fights the elements
- Durable, breathable fabric
- Comfortable fit rib-knit cuffs & waist
- Drawstring adjustable hood
- Reinforced pocket seams
- Regular fit allows room to move

Available in sizes from S to XXL

NEW MILWAUKEE® PERSONAL PROTECTIVE EQUIPMENT

Personal Protective Equipment has seen little innovation over the years, driving users to modify their gear to better meet their needs. We have taken the time to understand our users' needs and develop PPE from the ground up, delivering Hard Hats that allow users to adapt to each job and safety glasses that can be worn all day with lasting fog-free lenses. MILWAUKEE® is focused on creating innovative solutions that won't slow users down, helping them stay safe and stay productive on the jobsite.

MILWAUKEE® SAFETY GLASSES RANGE

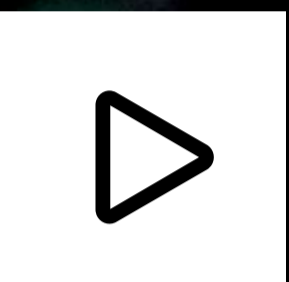

REMOVABLE GASKET
PROTECTS AGAINST DEBRIS

**ANTI-
SCRATCH
LENSES**

NEW

PREMIUM SAFETY GLASSES WITH GASKET

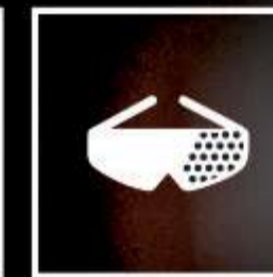

The gasket places the glasses closer to the skin and avoids any dust or debris entering into the eye. This is the perfect replacement for safety goggles, as the glasses offer the same dust protection, without the discomfort.

The tinted premium safety glasses benefit from polarised lenses to protect from glare, and offer best-in-class UV protection.

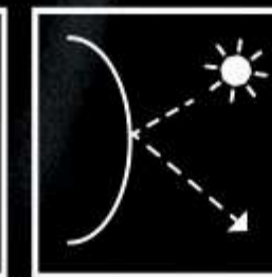

ANTI-SCRATCH

LONG LASTING
ANTI-FOG

COMFORT

POLARIZED LENSES
FOR TINTED VERSION ONLY

NEW

PERFORMANCE SAFETY GLASSES

Performance Safety Glasses also benefit from Milwaukee Tool's anti-scratch lenses, allowing for easy, care-free cleaning. The anti-fog coating on the lens makes the glasses compatible for use with a respirator and perfect for all-day wear, inside and out.

**LONG

M18 FUEL 1/2" COMPACT IMPACT WRENCH WITH FRICTION RING

CLICK HERE TO VIEW ONLINE

FEATURES:

- Power efficiency under load - outstanding torque of 339 Nm
- Extremely compact design - total length of just 124 mm for access into tight spaces
- 4-Mode DRIVE CONTROL allows the user to shift into four different speed and torque settings to maximise application versatility
- Bolt removal control delivers full torque output, then decreases RPMs once the bolt is loosened to prevent fastener drops
- Auto shut-off control applies no more than 34 Nm of torque for hand-tight fastening applications to prevent over tightening
- Tri-LEDs deliver high definition lighting to increase workspace visibility
- 1/2" square friction ring
- Reversible belt hook

M18 FUEL MULTI-TOOL

CLICK HERE TO VIEW ONLINE

FEATURES:

- POWERSTATE™ brushless motor pairs with an aggressive oscillation angle of 2.1° (left/right) and 10,000 – 20,000 OPM to deliver one of the fastest cut speeds in the industry
- Suitable for many demanding applications with ease, such as rip cuts through hardwoods and nail embedded wood
- 10-setting dial with an auto-load feature allows users to adjust the speed to the application
- FIXTEC™ tool free blade change with universal blade change adaptor included to accept all major competitor blades
- Integrated 180 degree LED light for maximum visibility in low-light situations
- Supplied with 1x universal fit OPEN-LOK oscillating multi-tool wood blade, 1x multi-tool sanding pad, 1x 60 grit sand paper, 1x 80 grit sand paper, 2x 120 grit sand paper, and 1x 240 grit sand paper

THE MILWAUKEE®

M12
OVER 90 TOOLS

M18
OVER 190 TOOLS

M18 MULTI TOOL

PERFECT MATCH

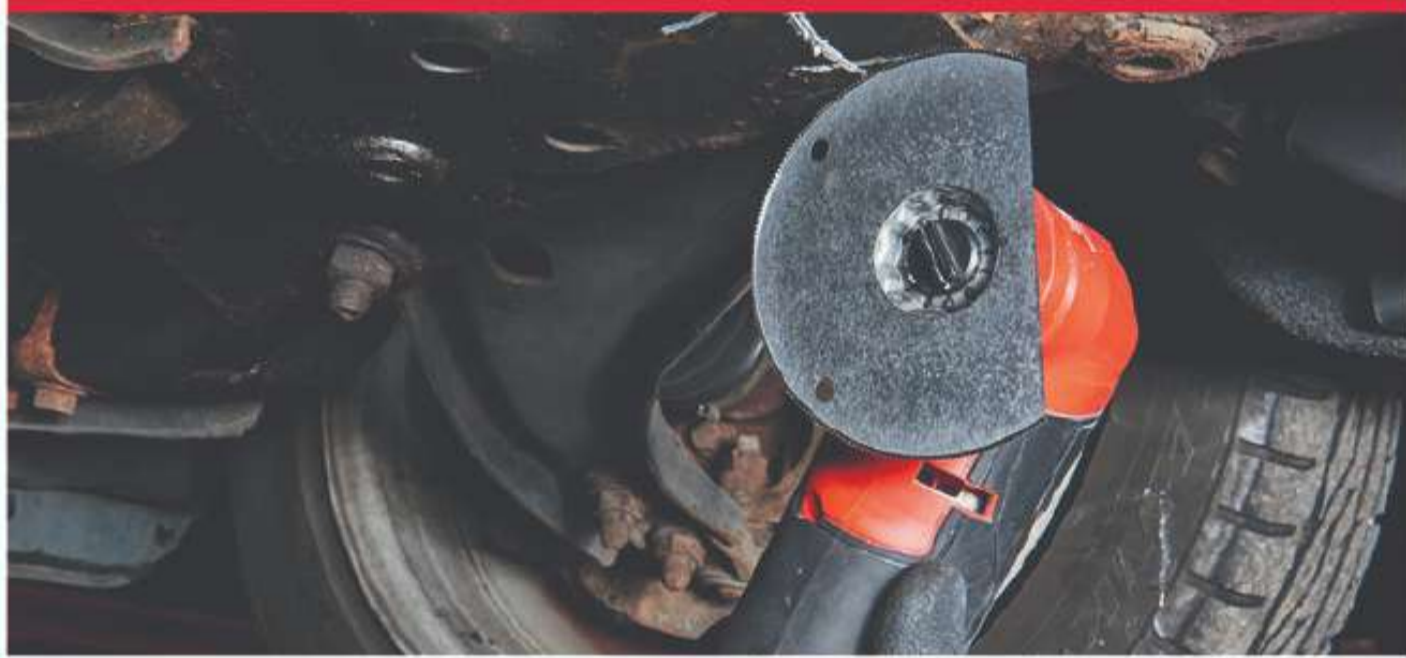

M18 BMT-421C
ART.# 4933446272
MULTI MATERIAL 85 MM DIAMETER SEGMENTED FLUSH CUT BLADE
ART.# 48906038

The MILWAUKEE® Starlock system across the Multi-Tool range allows for fast blade changes, and 100% power transmission from tool to accessory. It brings improved efficiency to the jobsite with its aggressive cut. The oscillating multi-tool blades offer a best in class lifetime & durability.

RUNTIME

Our MILWAUKEE® blades are suitable for many demanding applications across several trades. One example is our metal cutting blades, which provide the perfect match for body cut outs or rust removal for Automotive users.

M18 WRENCHES & SOCKETS

PERFECT MATCH

M18 ONEWF12-502X
ART.# 4933451375
8 MM 1/2" IMPACT SOCKET
ART.# 4932478034

At MILWAUKEE®, we provide the perfect solution on all job sites. MILWAUKEE® SHOCKWAVE™ Impact duty sockets feature ACR-MO steel and custom heat treatment for up to 4,500 Nm resistance. Our SHOCKWAVE™ Impact sockets can be used for applications across a wide variety of trades, including Transport, Plumbing, Electrical and Utility.

POWER

The recessed corners provide improved torque transmission, reduce impact on corners, and prevent wear and damage to the bolt. The MILWAUKEE® SHOCKWAVE™ socket extension range help users to reach bolts in tight areas while still transferring a maximum level of torque.

SDS PLUS + SDS DUST TRAP

PERFECT MATCH

M18 CHX-502X
ART.# 4933451383
SDS+ DUST TRAP
ART.# 4932464916

MILWAUKEE® is committed to providing safe and versatile silica dust management solutions. Dust on the jobsite is a major threat when it comes to occupational health in the UK. The MILWAUKEE® SDS Plus Dust Trap Drilling Shroud is an effective way of mitigating that threat, especially when drilling above head.

SAFETY

It limits the amount of dust you are exposed to on the jobsite, decreasing your risk of suffering from dust related health impacts. The compact collapsible design and clear sleeve ensures maximum visibility, accessibility and safety on the job site.

SAWZALL™

PERFECT MATCH

M18 ONEFSZ-502X
ART.# 4933478294

AX™ CARBIDE TEETH -
150 MM - 5 PCS
ART.# 48005521

The MILWAUKEE® AX with Carbide teeth Sawzall blade provides best in class cutting performance. We continue to lead the way in reciprocating saw blade technology with our AX Carbide blade which give users up to 50X longer life than standard Bi Metal blades.

FASTER CUTTING

These blades have been re-engineered to be the fastest cutting and longest lasting carbide tipped reciprocating saw blades on the market. The Carbide teeth extend the blades life in nail embedded wood, as well as improving the performance in hard and abrasive materials. The new Fang Tip technology allows for 2X faster cutting and up to 25% more cuts per battery charge.

M18 SAW + CIRCULAR SAW BLADE

PERFECT MATCH

M18 FCS66-121C
ART.# 4933464587

CSB P ALU160 X
20 X 2.2 X 52TF
ART.# 4932471292

MILWAUKEE® metal saw blades offer a fast and efficient cut on a wide range of metal applications. From framing to finish applications, you can rest assured that all blades have been designed specifically to meet your demands. Our laser cut technology reduces vibration and provides a cooler cut for enhanced safety on the jobsite.

COOLER CUT

A combination of CERMET and carbide teeth give blades a superior lifetime. MILWAUKEE® metal circular saw blades matched with the M18 FUEL™ 66 mm Metal Circular Saw will give efficient and aggressive cutting on all metal applications.

SDS + NEW MX4

PERFECT MATCH

M12 CH-602X
ART.# 4933451907

SDS-PLUS MX4
5 X 115 - 1 PC
ART.# 4932352027

Drilling into concrete is one of the most demanding applications on the jobsite, but Milwaukee has you covered. Our MILWAUKEE® MX4 Drill bits are engineered to provide maximum performance and reduce breakage and wear for best in industry durability. Reinforced flutes help to offer a 4X longer life and up to 20% more holes per charge.

LONGER LIFE

MX4 drill bits feature a solid carbide tip. Sizes above 12 mm benefit from slotted tips which deliver longer lifetime and exceptional performance. All MX4 drill bits are PGM rated, for precise and efficient drilling. They offer best in class in drilling across a variety of trades.

M18 FUEL ONE-KEY™ SAWZALL™

[CLICK HERE TO VIEW ONLINE](#)

FEATURES:

- M18 FSZ but with ONE-KEY™ technology
- Connect via Bluetooth® with the ONE-KEY™ app
- ONE-KEY™ tool customisation allows the user to optimise their tool for specific applications
- ONE-KEY™ tool tracking & security offers a cloud-based inventory management platform that supports both location tracking and theft prevention
- Adjustable soft start provides more accurate cut-starts in various materials minimising blade chatter and assisting in cleaner faster cuts
- Cut optimisation gives longer blade life and easier cutting in a wide range of materials
- Automatic brake allows the saw to stop the blade after it breaks through a material preventing accidental cuts in adjacent materials
- Save up to three custom settings to the tools memory allowing fast and easy selection of the most used configurations

M18 FUEL 66 MM METAL CIRCULAR SAW

[CLICK HERE TO VIEW ONLINE](#)

FEATURES:

- Shoe designed to connect directly on MILWAUKEE® guide rail (sold separately). This allows the user to make straight and accurate cuts with minimum setup time
- First 18V cordless metal circular saw with 66 mm cutting depth and 1800 W corded performance
- Faster cutting speed compared to corded unit
- Dry-cutting technology provides fast, clean and burr-free metal cutting
- Performance light indicates when the device is pushed to hard
- Electric break stops blade in under 1 sec
- Large metal chip collector captures debris produced while cutting and provides needed visibility
- Dual-action trigger prevents any accidental start up
- Tool-free cutting depth adjustment and plunge lever for fast and effective plunge cuts
- Supplied with 42 tooth blade for ferrous metal cutting

MILWAUKEE® TURN THE JOBSITE CORDLESS

At Milwaukee Tool we are constantly striving to improve the safety and productivity standards of the jobsite, providing innovative new solutions to enable trades people to turn the jobsite cordless.

The MILWAUKEE® Job Site Solutions Team work on the front line of innovation everyday across all trade sectors. They use MILWAUKEE® cordless solutions to remove dangers from the jobsite, and enable trades people to work in a safer and more productive environment.

“OUR ULTIMATE AIM IS TO TURN THE JOBSITE CORDLESS”

DANGERS OF CORDED AND PETROL TOOLS

Request a visit from JSS

2

JSS visit and assess your jobsite

3

JSS provide solutions to improve your operations

ZERO EMISSION LONDON TEAM:

To help drive the reduction of Jobsite related emissions in 2021 the London JSS team will use fully electric, zero emission vans, the first of their kind to be available in the UK. This commitment to reducing our carbon footprint extends the benefit of battery powered tools, and will reduce the teams carbon footprint.

MX FUEL™ not only provides all the power of corded and petrol powered light equipment, but also produces **ZERO EMISSIONS.**

With the elimination of fumes and emissions, MX FUEL™ allows the user to reduce their carbon footprint, as well as improving health and safety as harmful fumes, noise and vibrations usually associated with the running of light industrial equipment are eliminated.

NO EMISSIONS

NO PULL START

NO MIXING PETROL AND OIL

NO ENGINE MAINTENANCE

SEE WHY THE PRO'S CHOOSE

ZERO EMISSIONS

“We were very impressed with the battery breaker, starting it up is so much easier than the petrol ones we use. Using it on site saves us from having issues like having to trail leads across pathways, making it a lot safer for pedestrians. The vibration is also lower as the breaker does the work meaning less pressure is needed by the operator.”

Paul Farrow - Storeman | AMEY | Norfolk Street Lighting

“Having been a long term user of MILWAUKEE® cordless tools we were looking forward to trying the new MX range, the performance of which we found to be better than the petrol equivalents we currently run, whilst also giving us the usual environmental and safety benefits. Using the MXF COS350 for applications involving cutting steel and the MXF DH2528H for breaking concrete is a major step forward for us as a business on the sites on which we operate and also with our commitment to reduce our carbon emissions.”

Kevin Kent - Managing Director | Kent Group

“Not only is it easy on the shoulders and arms reducing HAVS exposure but also on the material that it ploughs through with complete ease. Rubberised grips, brush life indicators and power indicators add to the ergonomics of the hammer. With anti-vibration systems built into the tool and an ergonomic handle, comfort is ensured. Reduced weight and ultra-portability, another positive of the MXF DH2528H. It is an absolute winner all round and a new go to tool for all our Drainline Civils Engineers.”

Paul Monck - SHEQ Director | Drainline

“Our teams thoroughly tested the MILWAUKEE® MXF DH2528H to see how it performs when it comes to taking up tarmac and concrete from the kerb. They found it light enough to use and easy to store in our vans. As part of our testing, the breaker’s battery also lasted well. With two lights still available. It meant the team was able to complete a joint hole in tarmac without any need to recharge which is important when we are focused on completing work safely and as quickly as possible for our customers.”

George Marshall - Production Manager | Northern Powergrid

“The MX FUEL™ Breaker was a huge success and perfect for our application during our extensive trials. The feedback from the guys on site was that the vibration was low and the power was very impressive. Another huge benefit of the battery powered breaker was not having to have trailing leads across the site. Very impressed.”

Darren Page - Project Manager | Carey Civil Engineering

MX FUEL JOB SITE SOLUTIONS

BOOK A VISIT WITH OUR SPECIALIST MX FUEL™ JOB SITE SOLUTIONS TEAM

“Thank you for the MX FUEL™ demonstration, having suppliers work with us to drive innovation and safety is key, good to see these new products on our sites.”

ONE-KEY™

UNLOCKING THE DIGITAL JOBSITE:

- Bluetooth
- LOCATION

BUILD A MORE CONNECTED JOBSITE

With 40 connected tools and counting, MILWAUKEE® is the world leader in smart solutions, dedicated to moving jobs forward.

Download ONE-KEY™ APP for free via the APP store, or Google Play Store, or simply use your browser

DIGITAL INVENTORY

TOOL TRACKING

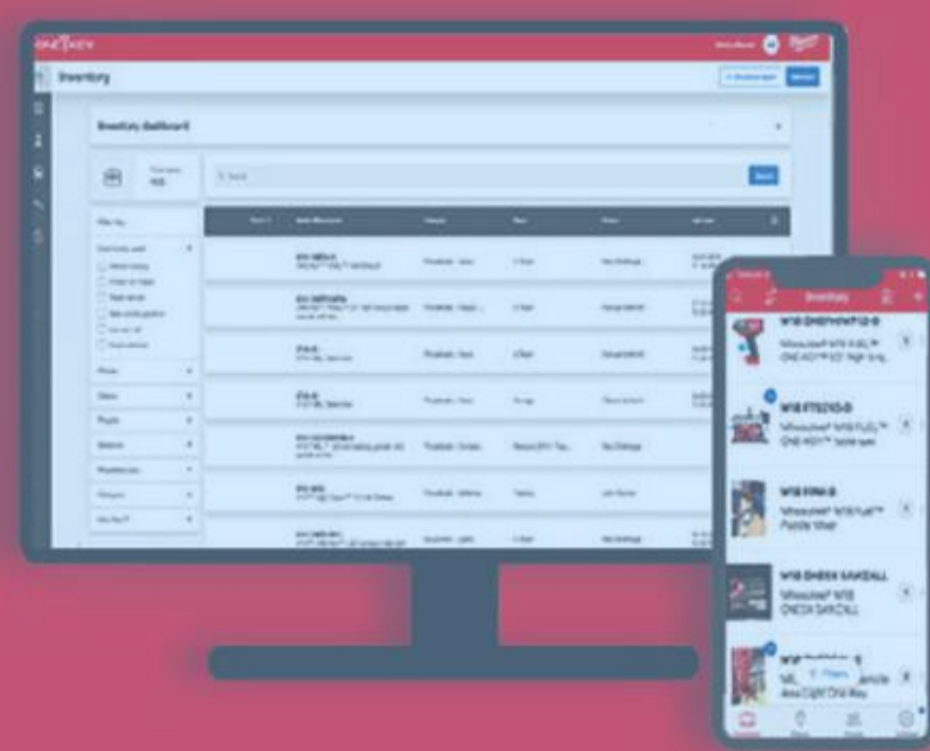

CONNECTED TOOLS

DIGITAL INVENTORY

ONE-KEY™ lets you manage your assets from your computer, tablet, or smartphone. On the jobsite, in the office - access your inventory, wherever you go with our cloud-based solution.

THE INVENTORY DASHBOARD:

- Helps you draw quick insight
- Smart filters display essential information like recent transfers from jobsites

ITEM DETAIL:

- Seamlessly manage details
- Increase accountability across jobs with visibility of tools
- Know where the tools are assigned to

TOOL HISTORY:

- Build a digital breadcrumb trail with accessible history of when, where and how your tools have been used

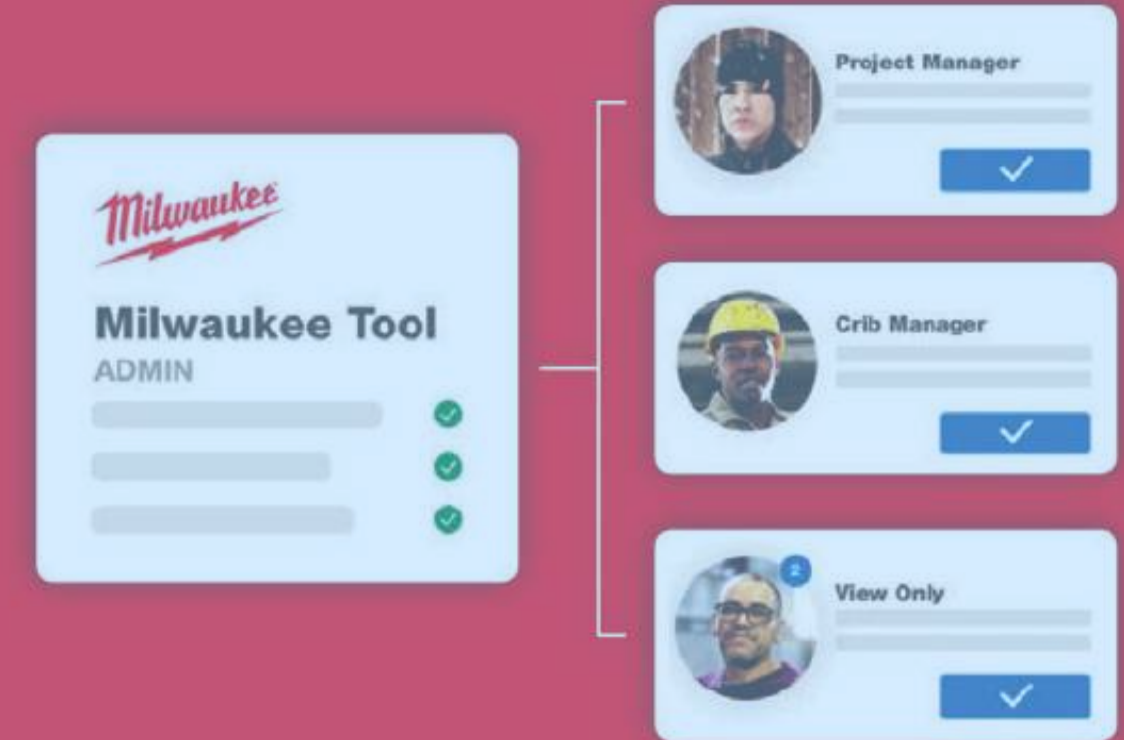

SERVICE REMINDER:

- Set service reminders on your equipment and ONE-KEY™ will notify you when attention is needed

CREW MANAGEMENT

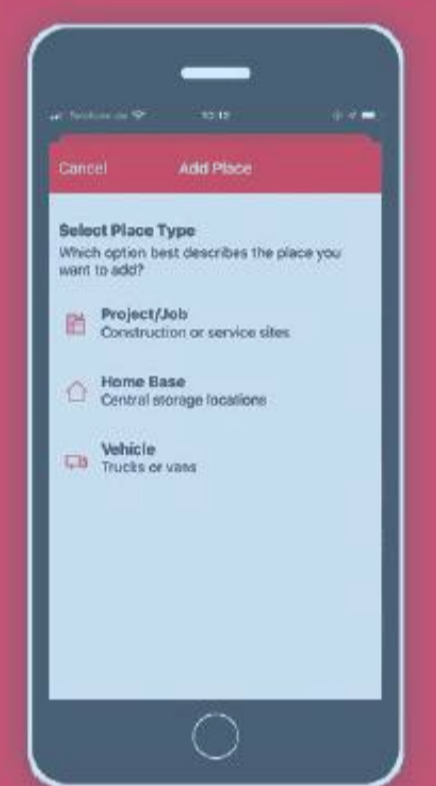

MULTI-USER

- Invite employees to your account and let them manage your equipment and inventory
- Integrated role assignments decide what they'll have access to
- Import contacts from your phone book or add new ones to a virtual address book
- Call, text, or email people right from the app

PLACES MANAGEMENT

- Manage your inventory based on where it is stored
- Quick access of all your jobs in one clean view
- Visualise what's on-hand to cut back on hoarding, or get something where it needs to be
- Audit anywhere, the quickest way to verify what you have on-hand
- Transfers, fill a shopping cart of items to send to a site, auto-generate a pick-list for accountability

TOOL TRACKING

With community Bluetooth® tracking, barcode scanning, and geo-fencing, staying on top of your tools and equipment is easy. ONE-KEY™ shows the last seen location of your connected tools. Mark one missing and our network, made up of hundreds of thousands, helps find it.

TICK™ Tool and Equipment Tracker
Versatile Bluetooth® tracker that can be attached with glue, screws, rivets or straps on anything. It provides location updates (last seen date, time and location) when it comes within a 30 m range of any phone with the ONE-KEY™ App.

*The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by (TTI corporate name) is under license. Other trademarks and trade names are those of their respective owners.

CONNECTED TOOLS

- Track and lock tools, remote tool lockout makes stolen tools useless to thieves
- Dial in performance, set up your tools for the work you do
- Utilisation data, verify that tools are performing tasks to specification
- Ultimate control, maximise tool performance and accessory life
- Reporting, generate detailed reports on how your equipment is performing and send them to anyone that needs to know

NEW
**NEXT
GENERATION**

At MILWAUKEE®, we strive to do things better. To make life easier in the toughest working conditions. We pour our energy into the relentless improvement of our products, and even the most minor improvements begin with understanding the challenges of the jobsite.

This intrinsic understanding of the challenge has led to the creation of our next generation MX4™, a game-changer in drill bit technology. Solid carbide construction means longer life, Target Tip Technology and a shaper angled tip means greater accuracy and next level speed in drilling through the toughest materials.

MX4™ is the benchmark in SDS-Plus and SDS-Max drill bits. Because at MILWAUKEE®, every bit matters.
